

AstroTurf.

The first name in turf  ... and all that's around it

Rekortan[®]

ONE FIELD. ONE TRACK. ONE PARTNER

It is rare in our industry for one company to offer a track or field customer a coast-to-coast resource for their entire project.

From initial project guidance to selection, procurement, and installation, our team simplifies the process and improves the outcomes of your decisions.

We provide a national, one-stop team with engineering, construction, and management that allows you to take control of the process.

Eliminate costly and time-consuming bid procedures. Put an end to scheduling conflicts and finger-pointing.

From surveying and design to permits and engineering, through civil work, base, drainage, and construction of a fully serviced and warrantied track or field, we do it all.

From initial product selection through the design and construction process. From budget to base path. From fiber to field. Full project services, managed end-to-end.

Regardless of what track or field you are considering, you can count on AstroTurf for the complete package.

Our long history gives us a unique perspective. Over the past 60 years, our team has experienced tens of thousands of projects, helping eliminate surprises and problems.

With the global resources of SportGroup and a growing network of national hubs from coast to coast, we provide our customers with the latest technologies and one-stop project management, delivering efficient and effective results.

Take control · Simplify communication
One management team · Ultimate efficiency
